

Track and Trace

#StaySafe

Government guidelines currently require us to record customer contact details to help the NHS Test and Trace respond to local Covid-19 outbreaks.

✓ We won't give anyone your details except NHS Test and Trace, and we'll only give it to them if they ask for it.

✓ Please provide your details by EITHER logging onto: www.pubtrace.co.uk or by scanning this QR code:

Hover your smartphone camera over me!

✓ We will never use these details for marketing purposes.

✓ We will securely delete your contact details 21 days after we receive them, if the NHS hasn't requested them by then.

✓ You can ask to access your details, correct them, delete or restrict access, object to us holding them, or get them back in electronic form, and you can complain to the Information Commissioner at <http://ico.org.uk/> should you so choose.
